

TRENCH SHORING RENTAL EQUIPMENT

BoydCat.com · 855-4BOYDCO

THE NEXT LEVEL IN TRENCH SAFETY

ULTRA-SAFE

Specifically designed to always keep the workers safe and out of the line of fire during all phases of assembly, disassembly and in the ground.

ULTRA-FAST

Get ahead on your production schedule with a system that takes only minutes to assemble, using only one machine, one operator and one worker.

ULTRA-LIGHT

Up to 40% lighter than the traditional trench box by using specialty high tensile steels. Smaller equipment can now handle larger trench boxes.

MODULAR ALUMINUM TRENCH SHIELD

The Pro-Tec Equipment MOD Series is a modular aluminum trench shield system that is lightweight and easily transported via pickup truck. It can be used as a 2-, 3- or 4-sided system with existing components and can be changed on the fly at a job site to meet the job's requirements.

SLIDE RAIL SHORING SYSTEMS

The Pro-Tec Equipment Slide Rail System is a dig-and-push style trench shoring system. With its modular, flexible design the system can work with a wide variety of shapes and sizes.

ELECTRIC SUBMERSIBLE PUMPS

Ideal for low to medium volume dewatering applications. We offer 2" or 3" models. All operate on 115V current. The discharge hose is rented separately and is bulk.

GAS TRASH PUMPS

Designed for high-efficiency pumping of water and small solids up to 1". Both suction and discharge hoses are bulk.

DIESEL PUMPS

Used for performing sewer bypass, plant shutdowns and dewatering flooded areas. We offer 4", 6", and 8" models. Features a large fuel tank for extended run times. Hoses are separate and are bulk items. With these larger pumps, suction screens are attached to the end of the suction hose to keep debris out..
